Professional Summary

Full-Stack Web Developer specializing in PHP, Laravel, React.js, MySQL, and RESTful APIs. Experienced in building scalable full-stack applications using MVC architecture, Docker, authentication, and test-driven development. Former hospitality professional with strong communication, adaptability, and problem-solving skills, bringing a customer-focused mindset to software development.

Projects and Experience

TCG Manager – REST API | github.com/kentquinto/Sprint5-1 | *Laravel, Passport, Docker, Pest* May 2026 – July 2026

- Built and deployed a Laravel 13 REST API for organizing TCG tournaments across 13 supported games, with role-based access for players and organizers.
- Implemented Bearer token auth via Laravel Passport, event/participant management, dashboards, and leaderboards, enforced through policies and business rules.
- Developed using TDD with Pest (87 tests, 261 assertions) and documented all endpoints with Scribe (interactive docs, Postman/OpenAPI); containerized with Docker and deployed live on Render.

TCG Manager – React Frontend | github.com/kentquinto/Sprint5-2 | *React.js, Vite, Tailwind,* May 2026 – July 2026
Docker

- Built a React 19 + Vite single-page application consuming the TCG Manager Laravel REST API, with token-based auth and role-aware routing.
- Implemented event browsing with debounced search/filtering, a capacity-aware event detail view, an organizer/player dashboard, and self-service account management (password changes, account deletion).
- Containerized the app with a multi-stage Docker build (Node build → Nginx) and deployed the frontend on Vercel with the API on Render, delivering a fully responsive, production-live application.

TODO App | github.com/aproposito/03_Sprint_03_task | *PHP, MySQL, JSON, MVC* April 2026 – May 2026

- Team-built a multi-user task manager with authentication, tagging, filtering, and profile management.
- Designed a dual persistence layer supporting both JSON and MySQL storage using OOP and MVC in raw PHP.
- Collaborated via feature branches, pull requests, and code reviews following Gitflow conventions.

Hospitality Professional

Multiple Hotels and Restaurants

Barcelona, Spain
June 2019 – Nov. 2025

- Delivered consistent, high-quality service across multiple hotels and restaurants in fast-paced environments.
- Trained new staff, managed competing priorities, and resolved customer issues while maintaining team efficiency.
- Communicated daily with international customers in English, Spanish, Catalan, Tagalog, and Ilocano.

Technical Skills

Languages: PHP, HTML, CSS, SQL, JavaScript

Frameworks: Laravel (Blade, Eloquent, Passport), React.js, Vite, Tailwind CSS

Databases: MySQL, MongoDB, SQLite

Developer Tools: Git, GitHub, VS Code, Docker, Vercel, Render

Concepts: MVC architecture, REST APIs, CRUD operations, TDD

Languages

English: Advanced – Professional

Spanish: Advanced – Professional

Catalan: Advanced – Working

Tagalog: Native – Professional

Education

IT Academy

Full-Stack Web Development Course

Barcelona, Spain
Feb. 2026 – Present

ETP Xavier

Bachillerato of Science

Barcelona, Spain
Sep. 2017 – May 2019
